

MARK PENA

Software QA Analyst | Test Automation | CI/CD | Agile | API Testing
markapena1@gmail.com · (832) 656-5644 · linkedin.com/in/markapena1 · Houston, TX

SUMMARY

Results-driven Software QA Analyst with 5+ years of progressive experience in test automation and technical support. Proven track record designing end-to-end automation frameworks with Playwright, reducing manual testing effort by 40% and regression time by 35%. Skilled in Agile environments with a strong focus on cross-functional collaboration, CI/CD integration, and delivering measurable improvements to software quality and user experience.

SKILLS

- Automation & Testing: Playwright, Selenium (familiar), API Testing, End-to-End & Regression Testing
- Languages & Tools: JavaScript, Python, SQL, Git, VS Code
- DevOps & Methodologies: CI/CD Pipeline Integration, Azure DevOps, Agile/Scrum, SDLC, Test Planning
- Collaboration: Cross-functional stakeholder communication, defect triage, technical documentation

EXPERIENCE

Software Quality Assurance Analyst

06/2023 – Present

ManhattanLife | Houston, TX

- Spearheaded end-to-end test automation across multiple web applications using Playwright, cutting manual testing effort by 40% and increasing overall test coverage.
- Reduced regression testing time by 35% through building, maintaining, and optimizing E2E automation scripts for consistent performance across diverse platforms.
- Created and managed feature branches for Playwright test scripts, tracked file status, and submitted pull requests through Azure DevOps for team code review.
- Modernized API testing workflow by migrating from Swagger to Bruno API, eliminating manual token re-entry and endpoint navigation friction, streamlining test execution across multiple endpoints.
- Performed SQL-based data validation across enrollment IDs, plan codes by state/product, and agent records to verify data accuracy in test environments.
- Developed comprehensive test cases from requirements analysis and led cross-functional defect resolution efforts, streamlining documentation to accelerate developer turnaround and achieve 100% manual testing coverage.

Support Analyst

2021 – 2023

ManhattanLife | Houston, TX

- Delivered expert technical support for end users, resolving 95% of issues within SLA timelines and consistently exceeding satisfaction benchmarks.
- Partnered with cross-functional teams to test and deploy software updates, minimizing downtime by 30% through rigorous pre-launch validation.
- Analyzed system performance metrics and user feedback to identify improvement opportunities, implementing solutions that boosted user experience scores by 25%.
- Authored training materials and documentation that reduced new-user onboarding time by 20%, enabling smooth transitions to updated systems and technologies.

EDUCATION

Bachelor of Business Administration – Information Technology

2018 – 2020

Texas Tech University – Rawls College of Business | Lubbock, TX · GPA: 3.4/4.0
